SAHM CORE LLC

ABOUT
Sahm Core

Empowering Businesses with Managed IT Services

Sahm Core L.L.C provides IT services and solutions, with its headquarters located in Riyadh, Saudi Arabia. Our strategic focus is on attracting and retaining the best IT talent in the region and establishing strong, lasting partnerships with companies looking to develop the full lifecycle of their IT projects.

We deliver advanced solutions that enable our clients to reduce IT complexity and operational costs, increase administrative efficiencies, and drive business agility and growth.

Sahm Core's distinguished relationships with technology partners allow us to deliver innovative solutions at the best possible costs across a wide range of advanced IT services.

Our Vision

"To be the leading IT solutions provider in the region, empowering businesses with cutting-edge technology, top-tier talent, and strategic partnerships that drive efficiency, innovation, and sustainable growth."

Why Sahm Core?

At Sahm Core, we are committed to empowering businesses with cutting-edge IT solutions that drive efficiency, innovation, and sustainable growth. We understand the unique demands of the Saudi market and tailor our services to meet the evolving needs of businesses in the region. Through strong partnerships with leading technology providers and a focus on simplifying IT complexities, we deliver cost-effective, scalable solutions that enhance business agility. By aligning with Saudi Arabia's vision for digital transformation

Our Values

Innovation

We love staying ahead of the curve, always on the lookout for the next big thing to keep our tech fresh and exciting.

Excellence

We don't just meet expectations—we crush them! Delivering top-notch service is our thing, no matter what stage we're in.

Integrity

No shortcuts here! We believe in being open, honest, and doing the right thing, every time.

Collaboration

Teamwork makes the dream work! We build strong relationships and work with the best to create win-win situations for everyone.

Growth

We don't stop at "good enough." We're constantly learning, improving, and pushing ourselves—and our clients—to new heights.

Adaptability
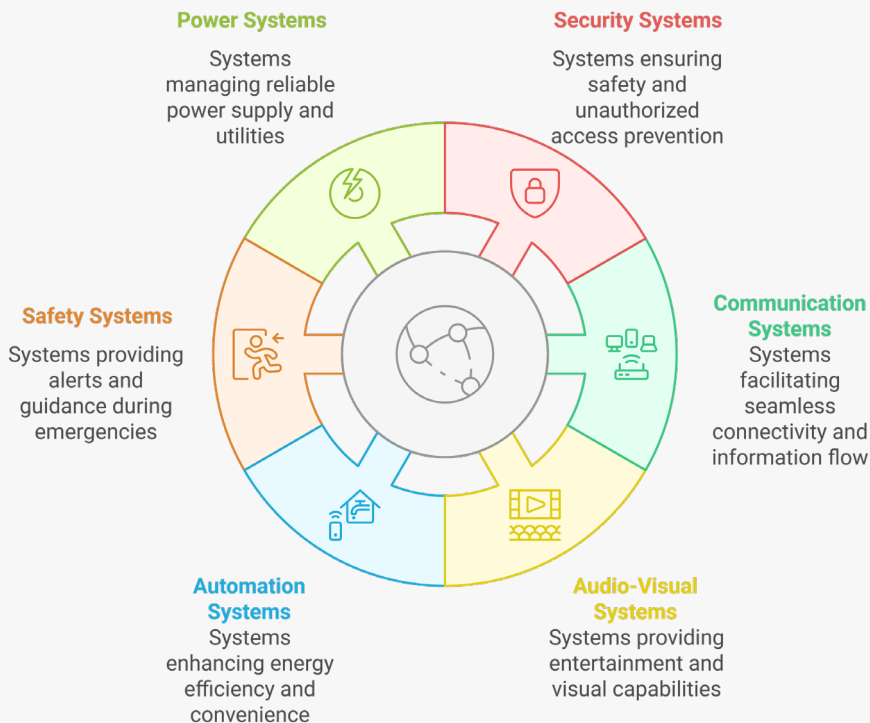

Change is our friend! We roll with the punches and adapt to whatever the market throws at us, always ready for the next challenge.

Our Services

Our IT & Low-current solutions include Security and Surveillance Systems, Audio-Visual Systems, Building and Home Automation
Systems, Safety and Evacuation Systems, and Power and Utility Systems, all designed to enhance safety, efficiency, and functionality in buildings.

Power Systems
Systems managing reliable power supply and utilities

Security Systems
Systems ensuring safety and unauthorized access prevention

Safety Systems
Systems providing alerts and guidance during emergencies

Communication Systems
Systems facilitating seamless connectivity and information flow

Automation Systems
Systems enhancing energy efficiency and convenience

Audio-Visual Systems
Systems providing entertainment and visual capabilities

Security & Surveillance Systems

Systems that ensure the safety and security of buildings and their occupants by detecting and preventing unauthorized access, monitoring activities, and managing assets.
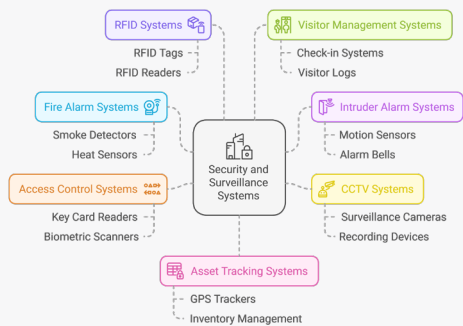

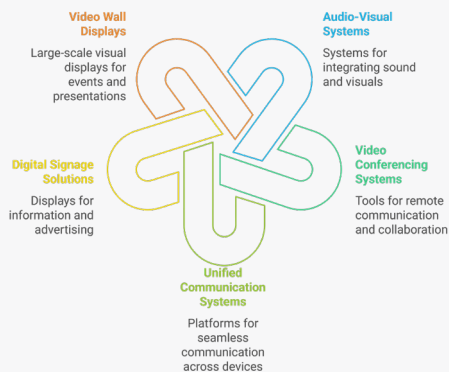

Communication & Networking Systems

Systems that facilitate communication, data transmission, and networking within buildings, ensuring seamless connectivity and efficient information flow.

RFID Systems
- RFID Tags
- RFID Readers

Visitor Management Systems
- Check-in Systems
- Visitor Logs

Fire Alarm Systems
- Smoke Detectors
- Heat Sensors

Intruder Alarm Systems
- Motion Sensors
- Alarm Bells

Security and Surveillance Systems

Access Control Systems
- Key Card Readers
- Biometric Scanners

CCTV Systems
- Surveillance Cameras
- Recording Devices

Asset Tracking Systems
- GPS Trackers
- Inventory Management

Telephone Systems
Systems for voice communication over distances.

Paging Systems
Systems for announcing messages to specific areas.

Queue Management Systems
Systems for managing customer flow and waiting lines.

Structured Cabling Systems
Organized cabling for data and telecommunications.

Public Address (PA) Systems
Systems for amplifying announcements to large audiences.

Intercom Systems
Devices for internal communication within buildings.

Nurse Call Systems
Systems for patients to alert medical staff.

Data Systems
Systems for managing and processing data.

IPTV Systems
Systems for delivering television content over the internet.

Audio-Visual Systems

Systems that provide entertainment, audio, and visual capabilities for presentations, meetings, conferences, and leisure activities within buildings.

Video Wall Displays
Large-scale visual displays for events and presentations

Audio-Visual Systems
Systems for integrating sound and visuals

Digital Signage Solutions
Displays for information and advertising

Video Conferencing Systems
Tools for remote communication and collaboration

Unified Communication Systems
Platforms for seamless communication across devices

Building & Home Automation Systems

Systems that automate and control various functions within buildings and homes, enhancing energy efficiency, comfort, and convenience.

Smart Lighting Systems
Automated Lighting
Energy-Efficient Bulbs

Smart Parking Systems
Space Optimization
Real-Time Availability

Building Management Systems
Operational Efficiency
Resource Management

Home Automation Systems
Convenience Features
Security Integration

Environmental Monitoring Systems
Temperature Monitoring
Air Quality Control

Energy Management Systems
Energy Savings
Consumption Analysis

Building and Home Automation Systems

**HVAC Control Systems**
Heating Control
Cooling Systems

Safety & Evacuation Systems

Systems that ensure the safety and well-being of occupants by providing timely alerts and guidance during emergencies, as well as protecting infrastructure from hazards.

Master Clock Systems
Systems ensuring synchronized timing for safety operations

Evacuation Systems
Systems providing timely alerts and guidance during emergencies

Leak Detection Systems
Systems identifying and alerting leaks to prevent damage

Lightning Protection Systems
Systems protecting infrastructure from lightning strikes

Power & Utility Systems

Systems that manage and provide reliable power supply and control essential utilities within buildings, ensuring uninterrupted operation and efficient resource utilization.

Elevator Control Systems
Systems managing elevator operations for efficiency

UPS Systems
Systems ensuring uninterrupted power supply during outages

Solar Power Systems
Renewable energy systems harnessing sunlight for electricity

Software Solutions

Our Software Solutions include Odoo ERP implementation, custom software development, web and mobile applications, system integration, cloud computing, and cybersecurity. We provide scalable and secure solutions to enhance business efficiency, automation, and digital transformation.

Enterprise Solutions
- Odoo ERP Implementation
- Custom ERP Solutions
- DevOps Services

Cybersecurity Solutions
- Data Privacy
- Compliance
- System Integrity

Sahm Core Software Solutions

Web & Mobile Development
- Custom Web Applications
- Mobile Apps (iOS & Android)
- E-commerce Platforms

System Integration & Cloud Computing
- API Integrations
- Cloud Infrastructure Management
- Disaster Recovery Solutions

Enterprise Solutions & DevOps

We provide Odoo ERP implementation, custom ERP solutions, and DevOps services to streamline business operations, enhance productivity, and automate workflows.
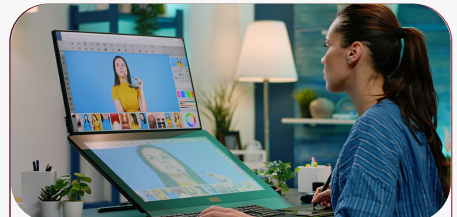

Graphics Design

Our Graphic Design services enhance brand identity through creative logos, branding, marketing materials, UI/UX design, and digital content, ensuring impactful and engaging visuals.

Web & Mobile Development

Our team develops custom web applications, mobile apps (iOS & Android), and e-commerce platforms, ensuring seamless user experiences and scalability.

System Integration & Cloud Computing

We specialize in API & system integrations, cloud infrastructure management, virtualization, and disaster recovery solutions to ensure seamless connectivity and scalability.
Cybersecurity Solutions

We provide comprehensive cybersecurity solutions designed to protect businesses from a wide range of cyber threats and ensure data privacy, compliance, and system integrity.
